Dual Admission Agreement between Connecticut Community College System Nursing Program and Saint Joseph College Announced

On March 23, President Calvin E. Woodland and Capital’s Director of Nursing, Dr. Cynthia Adams, attended a reception at Saint Joseph College to celebrate the signing of a Dual Admission Agreement between the Connecticut Community College Nursing Program and Saint Joseph College, the private women’s college in West Hartford.

The unique agreement allows qualified Capital Nursing graduates, and qualified graduates of other Connecticut community college Nursing programs, to be guaranteed enrollment in Saint Joseph College, where they will earn a Bachelor of Science degree in Nursing with a concentration in Multicultural Health.

Governor Rell was present and commended the colleges on the collaboration. “This is a tremendous opportunity for those seeking to advance their careers in health care,” she said. The “innovative program will greatly support the growing health care industry in Connecticut and help make a difference in the lives of all of our citizens.”
