Woodland

I. The Vision Statement was reviewed. Cindy Adams shared her version with the committee. Committee agrees that the Vision Statement needs to be more global in its wording. Cindy Adams and Emma Colon will re-write the Vision Statement and report back to the committee.

II. The Summary Document was reviewed. The committee discussed creating a document which can be distributed in house and externally. Some suggestions were that the reverse side of the document contain the CCC Facts at a Glance, the Socioeconomic Benefits information, or success stories. One message the committee would like to express is that “everyone in Hartford can go to College.”

III. Reviewed the current Work Plan. Discussed our current budget constraints and funding to support the Work Plan. The updated Work Plan was sent to all committee members and every sub group will meet to review the current draft and send any changes to Lester/Joan.

IV. Reviewed the Budget Plan for years 2006-2011. Deficits were noted by the committee. Some suggestions were to offer an alternate projection (CEW) and review strategies to see where we could reduce spending. The committee would also like to see what the Chancellor can do for Capital Community College as we are spending dollars in parking and common area charges. “Equal funding is not equitable funding” (MAA).

V. Next meeting is May 18, 2006 at 8:30am in the PCR.
